CRG International commitments continue this coming weekend, on September 29-30th, at the International Circuit of Le Mans for the 24 Hours Karting, CIK-FIA Endurance Championship GP1.

CRG will be present in Le Mans with its racing team that in the past three years has been among the absolute protagonists. The #2 team will include two World Champions of the likes of **Paolo De Conto** and **Pedro Hiltbrand** and the quick and competitive **Callum Bradshaw** and **Andrea Rosso**, on CRG chassis powered by TM engines in OK. This is going to be a high level sporting and technical challenge.

This is certainly one of the most challenging races for drivers and karts. Driving shifts will last at most 45 minutes, for a maximum of 8 hours per driver. Karts will fit LeCont tyres, 6 sets of slick tyres and 6 rains will be allowed. Time penalties will involve the Stop&Go procedure to be served into the pits.
