The Series that closes the season will take place on 3 rounds: Lonato this weekend, Castelletto on November 11th and Adria on November 25th. The Factory Racing Team will line up a selection of drivers, including Bortoleto debuting in OK in view of the 2019 season.

The long International Karting season is coming close to the end and, after the CIK-FIA World Championships in September, the 1st Round of the WSK Final Cup will take place in Lonato this weekend, a series on 3 rounds for the MINI, OKJ, OK and KZ2 classes. The 2nd Round will be in Castelletto on November 11th and the last one in Adria on November 25th.

For the CRG Racing Team these races represent the opportunity to make an important technical work in

view of the next season, but also to define the drivers line up. In this regard, a preview for the next year is **Gabriel Bortoleto's** debut in OK, same category as **Kas Haverkort** racing with the Zanardi brand.
